

**Advance Engineered Products Ltd.  
is looking for  
Service Mechanic/Welders – all levels  
to join our team in our  
195 Henderson Dr.,  
Regina, Saskatchewan Branch!**

Service Mechanic/Welders are needed to service and repair tanks and tank trailers. Duties include perform mechanical repairs, wheel alignment, suspensions, plumbing, brake systems, perform government inspections, fit and weld steel, aluminum and stainless steel tank bodies and trailers in a Service Repair Facility. Applicants are preferred to have some welding education and at least one year experience in welding aluminum production line welding. Training may be available for successful candidates without aluminum experience. Mechanical experience and aptitude is an asset. Candidates must be in good physical condition as work involved includes a wide variety of positions and tasks. Duties are performed in confined space, involves climbing ladders and working above the ground. Welding aluminum is using Gas Metal Arc welding.

Shifts available are currently a Swing shift which has a Day shift of 7:30 AM to 4:00 PM, Monday to Friday and an Afternoon shift of 2:30 PM to 1:00 AM, Monday to Thursday.

Competitive wages and benefits are offered.
