

**Advance Engineered Products Ltd.
is looking for
Welders – all levels
to join our team in our
Saskatoon, Saskatchewan Branch!**

Welders are needed to fit and weld steel, aluminum and stainless steel tank bodies and trailers in an industrial manufacturing plant. Applicants are preferred to have some welding education and at least one year experience in welding aluminum production line welding. Training may be available for successful candidates without aluminum experience. Candidates must be in good physical condition as work involved includes a wide variety of positions and tasks. Duties are performed in confined space, involves climbing ladders and working above the ground. Welding aluminum is using Gas Metal Arc welding.

Shift available is currently a Day shift of 7:30 AM to 4:00 PM, Monday to Friday and an Afternoon shift of 4:30 PM to 2:00 AM, Monday to Thursday.

Competitive wages and benefits are offered.

If this sounds like something you would be interested in, please forward a cover letter and resume to Lisa Armbruster, Manager of Human Resources, at larmbruster@aepl.ca today!
